

COLLABORATION SKILLS FOR GLOBAL ENGINEERS

4-weeks online course
03/05 - 24/05
5pm-7pm GMT

In each of the interactive sessions, you will get to know and develop the core competencies for global collaboration.

You will learn about the importance of cultural intelligence, effective communication strategies, global teamwork and inclusion to drive innovation.

You will have the opportunity to engage in learning activities that will challenge you to think critically and creatively about how to approach intercultural collaboration in a professional setting. Our expert instructors bring years of experience in international business and engineering to this course, providing you with practical advice and real-world examples. By the end of this course, you will have the tools you need to excel in a global marketplace and make a positive impact on the world.

The course lasts 8 hours in total and will be offered online on Wednesdays at 5pm-7pm GMT on 3rd May, 10th May, 17th May & 24th May 2023.

Upon completion, a digital badge may be awarded tracking the recipient's work completed to get it.
